Project: CROSS BORDER FIRESHIELD

Cërrik 19.07.2023

Today, on 19/07/2023, in the Gostim Administrative Unit, in the village of Shtërmën, in the existing forest near the Old Church, a fire was detected, as a result of the high temperatures that our country is facing.

The Fire Department near the Cërrik Municipality, as soon as it received the notification, showed readiness and carried out the emergency and immediate intervention, thanks to the capacities in human resources and the fire engine that the Municipality has benefited from the Cross-Border Project "Fireshield".

As a result of the quick intervention in time, only a small part of this forest and some olive roots burned, exhausting this hearth in time.

Now the Fire Department near the Cërrik Municipality can provide its immediate assistance and interventions.

This activity is implemented within the CROSS – BORDER FIRESHIELD project financed within the call IPA II, CBC, Europe Aid/170339/DD/ACT/MK.
